BNIM Architects

106 W. 14th Street Suite 200
Kansas City, MO 64105

Tel: (816) 783-1500
Site: www.bnim.com

Principal: Bob Berkebile
Employees: 100
Founded: 1970

Profile: Our Passion – Integrating Sustainability to Ensure Responsible Design. At BNIM Architects, we have made sustainability a way of life for our clients and for ourselves. It is not seen as an additional element of our design, or as an afterthought; it is simply the way we design. We are passionate about making responsible decisions for the good of our clients, the environment and the future users of our spaces. We have a responsibility to look to the future, to consider how our actions today will affect the generations of tomorrow. This is why we consider sustainability to be a way of life, integrated into all of our designs, not added to them.

In practicing sustainability, we strive to maximize the quality of our built environment, while minimizing the negative impacts on the natural environment. Finding this balance is part of our design process. Consequently, our designers can uncover how this balance will actually increase the value of a project, saving the client and owner money by reducing the amount of energy the building consumes, thereby reducing operating costs.

Busby Perkins + Will

1220 Homer Street
Vancouver, B.C. V6B 2Y5

Tel: (604) 684-5446
Email: info@busby.ca
Site: www.busby.ca

Principal: Peter Busby

Croxton Collaborative

475 Fifth Avenue 22nd Floor
New York, NY 10017

Tel: (212) 683-1998
Email: cca@croxtonarc.com
Site: www.croxtonarc.com

Principal: Randolph R. Croxton
Founded: 1978

Profile: Croxton Collaborative Architects, P.C., founded in 1978 by Randolph R. Croxton, FAIA, is a full service, mid-sized planning, architecture, and interior design firm. In addition to its well-known design ability, recognized by the National AIA Honor Award for Design Excellence, Croxton Collaborative Architects has originated and developed much of the practice of environmental/sustainable and human-centered architecture and design. Internationally recognized as an innovator, the firm has been instrumental in defining the criteria used to establish universally accepted goals and practices in this field of sustainable or 'green' architecture.
